

# SHANNON LOW

## PROFILE

I am a fine-arts fresh graduate looking to make an impact and engage with art and design. My areas of interest include illustration, motion graphics and 3D modelling. I would say ideation and storytelling are my strong suits!

During my university years, I had taken up several freelance design projects and was involved in various publicity and planning committees on and off campus.

While most of my previous work experiences are within the hospitality sector, these have built my social and organisation skills as well as my ability to work under pressure.
