

TIRA

A designer's resume

About Tira

Tira is a Singapore-based visual designer — specializing in visual graphics + editorial design + illustrations + narrative design.

Tira's artistic revelations are inspired by science, futuristic cyberpunk world, neon colors, space travel, and femininity. As such, Tira's works are vibrant, electrifying, and eclectic with a touch of femininity. Her unique manipulation of colors and imagery makes her works distinct from others. Tira enjoys illustrating serious issues in a humorous and playful approach.

Tira's high-spirited works have led them to advertise on Expat Living Magazine Singapore. Some of Tira's notable works include exhibition branding at the Visual Arts Centre Singapore, exhibition design for The MPA Maritime Bus, editorial design for Present Perfect & Boarder Perspective Magazine, and many more.

As a designer, Tira is extremely curious and is always asking questions. Tira believes we talk too much, but we don't communicate. Tira hopes that she can use her artistic visions to better convey important information in more straightforward, beautiful, and meaningful ways.

Tira is originally from Bangkok, Thailand, and is a graduate with a BFA in Visual Communication from the School of Arts, Design, and Media (ADM) in Nanyang Technological University Singapore (NTU).
